

Good morning,

The measures being put in place in across Australia to slow the spread of the COVID 19 (Corona virus) is having an impact on how everyone goes about their daily lives.

The information around the precautions needed to be taken to slow the spread of the virus are being continually updated by the Department of Health and the Centre will continue to be informed of these. As things progress this may include some changes in how we deliver our services.

To limit the number of people in the centre Community Lunch will not go ahead this week.

Jen will be working towards doing all her appointments via the phone.

At this stage we will continue to run our breakfast program with additional precautions being put in place to limit the amount of direct social contact.

Needle exchange will continue as normal

Shop is open as normal

EAPA vouchers will be delivered as normal

We ask anyone who is feeling unwell or suspect they may have been exposed to the virus not to attend the centre. If you are in need of assistance or are aware of someone else in your community who may need assistance please call the Centre on 4285 3055.

We have had notice from the following services that they will not be running their programs from the Centre until further notice.

- Big Fat Smile (Wednesday Playgroup and Thursday after school drop in)
- Uniting (NDIS)
- Homeless Hub

We hold the health and wellbeing of our community as our utmost priority and will continue to keep you updated with any changes in our services via social media and our web page. We are aware that not all our community has access to these so also ask that everyone support each other during this difficult time by passing on the information that is shared from our social media and web site page.

Rest assured we are planning for interim measures and will keep you updated as we can confirm.

Kind regards,

Cath Daly

Coordinator Bellambi Neighbourhood Centre Inc
